🏆 EXPERIENCE & ACHIEVEMENTS

100 Days Of Code Challenge (Full Stack & Design)   *Self-Initiated | Consistency & Discipline*

- **Unbreakable Consistency:** Maintained a **100-day active streak on LinkedIn**, posting daily technical learnings, code snippets, and progress updates without a single gap.
- **GitHub Activity:** Committed over **100 README files** and daily code updates, achieving a "Green Graph" for 3+ months straight.
- **Learning Outcomes:** Mastered MERN stack concepts, built 40+ UI Designs, and documented the entire journey publicly to help the community.

🖥 FEATURED PROJECTS

FilmyWorld - React Movie Application   🔗 **Link**   *React.js, Context API, Tailwind CSS, TMDB API*

- Developed a dynamic movie discovery app using **React Router** for seamless navigation between pages.
- Integrated external APIs to fetch real-time movie data, implementing search and filter functionality.
- Designed a responsive UI with **Tailwind CSS**, featuring hero sections and card layouts.

Secure Auth System (Backend API)   *Node.js, Express, MongoDB, JWT, ZOD*

- Built a robust backend server with **Express.js** handling User Registration and Login endpoints.
- Implemented **JWT** for secure session management and **ZOD** for strict input validation.
- Tested all API endpoints extensively using **Postman** to ensure reliability.

DesignCraft Portfolio (40+ UI Designs)   *HTML, CSS, JS, GSAP*

- Created a centralized hub (Live Link) showcasing over 40 distinct UI designs.
- Implemented **GSAP animations** and **Locomotive Scroll** for smooth user interactions.
